

PRESS RELEASE - September 16th 2024

Night Sky 13

Never before has Night Sky looked so beautiful!

Night Sky - the worlds most famous stargazing app receives its latest major update bringing a whole new level of beauty to Night Sky. With 88 all new '3D Glass Constellations', several user interface improvements, and support for iOS/iPadOS 18 and visionOS 2.

FEATURE SET:

- + **88 ALL NEW 3D GLASS CONSTELLATIONS** - a major visual improvement, Night Sky 13 brings 88 All New 3D Glass Constellations. Pull these beautiful 3D models out of the sky to admire the high level detail for your favorite constellations.
- + **LIGHT POLLUTION SIMULATION IMPROVEMENT** - We've made it easier to simulate the sky above you by adding a new slider to increase or decrease visual star density on Sky View.
- + **CELESTIAL COMPASS IMPROVEMENT** - We've made it easier to access the Celestial Compass feature to view the stars and planets around you at a glance.
- + **SEARCH TICKER** - Night Sky intelligently suggests celestial objects to search for in the Search field, based on what's visible above you now!
- + **SUPPORT FOR DARK ICONS** (iOS/iPadOS 18 required) - Night Sky 13 supports Dark Icons in iOS/iPadOS 18.
- + **NEW TAB BAR SUPPORT ON iPadOS** - (iPadOS 18 required) - Night Sky 13 supports the new tab bar making it quicker and easier to access features.

"Night Sky 13 is our biggest visual improvement to Night Sky in years with 88 all new 3D Glass Constellations! Pull them out of the sky using Apple Vision Pro, and manipulate them with your fingers on iOS and iPad to admire the incredible level of detail in each model. Never before has Night Sky looked so beautiful!"

- Andy Weekes, Founder & Company Director, iCandi Apps.

iCandi Apps was founded in 2008 by Andy Weekes, after he was inspired by the introduction of the App Store by Steve Jobs. Andy went from being a school teacher to creating one of the most successful reference apps in the world. Over the past 10 years the team has grown and made the most popular astronomy app in the world, having a reaching and meaningful impact on astronomy education around the globe.

Night Sky 13 is available to download for iOS, iPadOS, visionOS, watchOS, and tvOS on the App Store from September 16th 2024 -
